

## *2010 AIST Board of Directors*

---

B.S. and associates degree in engineering technology from Miami University in Oxford, Ohio.

**GARY M. URSO** has more than 27 years of experience in the metals manufacturing, utilities and services businesses. He currently serves as managing partner — asset solutions division with TDI Group LLC, Pittsburgh, Pa. Previously, he was general manager of Orbital Engineering Inc. for several years, directing the Pittsburgh operation, with oversight of the Philadelphia, Detroit, Texas and Serbia locations. Prior to joining Orbital, from 2002 to 2006, Urso provided senior consulting services to the steel industry at Hudson Global Resources, and served as vice president and general manager of Panelmatic Inc., Youngstown, Ohio. From 1995 through 2002, he was a key player in the successful design and implementation of the world's first DRAP (Direct Roll Anneal & Pickle) line at J&L Specialty Steel Inc. Urso also established and managed the first process control and automation department at J&L. He started his career with the General Electric Co. in 1983, advancing into leader-

ship roles serving the steel industry. Urso is a graduate of the University of Pittsburgh with a B.S. degree in electrical engineering. He is presently the AIST Pittsburgh Member Chapter chair and has been an active member for more than 15 years. ♦
